## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 11, 15-16, 25 are rejected under 35 U.S.C. 102(b) as being anticipated by Pelizzola. Note that parts 13, 11, 12 form the frame of the razor.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-2, 11, 15-16, 25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ortiz et al. in view of Pelizzola. Ortiz shows the claimed material except that the razor does not have at least 4 blades. Pelizzola shows the advantage of a razor with 4 or more blades. From this teaching it would have been obvious to one of ordinary skill in the art to add two or more blades to the Ortiz device.

Claims 1, 3-7, 11, 15-21, 25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Guimont in view of Pelizzola. The rational for this combination is incorporated by reference herein from the last Office action.

Claims 1, 11, 12, 15-16, 21, 26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Milner in view of Pelizzola. The rationale for this rejection is the same as in the last Office action.

### ***Allowable Subject Matter***

Claims 8-10, 13-14, 22-25, 27-28 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Conclusion***

The provisional rejection on double patenting has been dropped in view of the terminal disclaimer. Regarding the use of Pelizzola, applicant appears to argue that the reference does not show a frame. The parts 11, 12, 13 when assembled would appear to qualify as a frame. In combining Pelizzola with the other references it is the suggestion that plural blades as shown by Pelizzola shave better than 2 or 3 blades shown by the other references. This would suggest that more blades be added to the other references.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 3724

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
